Product Description

Firman Tri-Fuel Portable Generator 8000W Electric Start 120/240V - T08071

At FIRMAN, we have the best solutions for your most unexpected moments. So you can worry less and know we always have you covered!

The FIRMAN T08071 Tri-Fuel generator is a trifecta — running on gasoline, natural gas, and propane.

The T08071 is ready to work whenever you need it, on any terrain, regardless of your situation.

Coupled with a transfer switch, the T08071 can act like a great alternative as a portable, whole-home stand-by generator to get you through tough times after a big weather event.

It's the ideal candidate and the perfect option for those who enjoy camping, tailgating, and other recreational events.

The T08071 comes with an engine oil bottle, oil funnel, spark plug wrench, a double open-ended wrench (10mm, 12mm), LPG regulator with hose holder, and a cover.
