Product Description

eXmark 60" Radius X-Series Zero Turn Mower

If you're looking for the power and productivity of a premium commercial mower on a budget, you're looking for the new Radius X-Series. It combines features first proven on our premier Lazer Z models with the unbeatable value you've come to expect from Radius.

Choose from 52- or 60-inch UltraCut Series 4 side-discharge cutting decks and premium Kawasaki commercial engines. Integrated high-capacity HydroGear transmissions work with aggressive 24-inch Kenda drive tires to deliver unmatched traction and control, with ground speeds of up to 10 mph. Large semi-pneumatic caster tires, upgraded cast steel caster forks and tapered caster pivot bearings provide years of maintenance-free performance. And with an adjustable full-suspension operator seat and isolated floor pan, the Radius X-Series delivers enhanced operator comfort that's ideal for long work days.
