Product Description

AGR1301H Landscape Auger

The Billy Goat AGR1301H Auger is ideal for fence and deck building, sign installation, park & rec departments and rental, offering fatigue-free drilling and easy hole-to-hole transport for one person effortless operation. Combined with simple no-towing-required transport, there's no quicker and easier way to tackle what can be a daunting and time-consuming job. The unit conveniently ramp loads to a 6' truck bed in seconds, and fits compactly with the tailgate closed, without having to remove the bit. Auger is pictured with the 8" bit, which is sold separately.

Features -

Patent Pending Z-Link

Offers a straight line drilling motion with minimum machine repositioning.

Gas Spring Lift Struts

Assists the operator when lifting the bit from the hole, reducing fatigue.

Billy Goat Controls, the Common Experience

Our best-in-class controls package provides standardized variable speed intuitive hydro-drive controls allowing an operator to feather in forward/reverse directly at the handles with no shifting required. The Auger also

includes "Drill" at your fingertips for added convenience. Billy Goat Controls offer a consistent customer experience across our hydro-drive machines affording fleet buyers and rental customers simple operation, as well as ease of training and renting.

Drill Control

Fingertip access located near hydro-drive controls for convenient operation.

Spring Loaded Parking Brake

Located on rear wheels, helps to stabilize the machine for straight-line drilling on uneven or sloped terrain.

Pivoting Front Wheel Caster

Provides smooth transport to job site and from hole-to-hole along with high flotation rear turf tires.

Larger 13 Gross HP Engine and 10 GPM Pump and Motor Package

Produces 350 foot-pounds of best-in-class bit torque. Easily handles 2" - 18" bits.

Auger Bit Position During Transport/Drill

For compact efficient transport, bit locks in a forward transport position and easily clears the ground for simple moving hole to hole. Unlock both the transport handle and pull the quick release pin to swing the bit into position for vertical drilling. The bit can also be positioned and locked to a left or right angle when working on hills.

6' Truck Bed Transport - No Towing Necessary

No bit removal is necessary for transport. Fits compactly in the pickup bed with the tailgate up.

Ramp Loading

Loads/Unloads in seconds. Self-propelled makes transport, loading, and unloading simple and quick.
