Product Description

RS600 Spreader

Shindaiwa Spreaders are engineered for tough applications and built to last. All four models feature large rubber tires for effortless movement across all types of surfaces and are factory-calibrated to ensure the consistent application of a variety of materials. Each one also has a rotary agitator to stir material. The RS40, RS60 and RS76 feature an epoxy-powder coated frame to fight corrosion, and the RS76S features a stainless steel frame to withstand the harshest and last a long time.

Features:

- Spreads 25,000 sq. ft. of material
- Heavy-duty agitator prevents clumping
- Commercial T-handle frame design for comfort
- Factory-calibrated spread pattern can be controlled with side deflectors
